

# Uses of Computer

Computers are used in every field of life, such as homes, businesses, educational institutions, research organizations, the medical field, government offices, entertainment, etc. Today we can not imagine growing our technology without computers. The various field where the computer is very essential are:

**Role of Computer in Science:** Today computer is the primary work tool in the field of science. It is the best-suited machine for collecting, analyzing, classifying, and storing data. It becomes the most essential medium to spread knowledge internally and internationally. It allows scientists from different locations to work together and share ideas on the same project.

**Role of Computer in Defense System:** A computer performs a vital to control defense system. Computers are used to track airplanes, missiles, tanks, and different kinds of weapons. Once the radar system tracks a missile and artificial intelligence is programmed to target a missile and destroy it before it comes on the surface. It also used for GPS tracking, controlling defense vehicles, records of all members of the military.

**Role of Computer in Medical:** The computer plays a very important role in medical science such as record patients' information monitoring heart rate, oxygen level, and blood pressure. To conduct various surgeries junior doctors get the help of another professional doctor by web conferencing. Research is also spread with the help of computers in the health sector.

**Role of Computer in Education:** Today learning becomes easy because of computers. Anyone employed or student can learn any stage of life with the help of a computer. Computers are very crucial for online classes, download study material on the internet. Computers are also used to track student attendance and learning strategies. Coaching and institutes increased their areas by audio-visual aids using computers

**Role of Computer in Banking:** A computer performs a crucial role in banking sectors, by storing several account holder details on a bank server. All transactions such as deposits and withdrawals perform by a computer. A banking company can easily monitor all ATMs and passbook printing machines.

**Role of Computer in Government Sectors:** Government can easily monitor government sectors such as road services , railway, development, and other rising funds. The information of every citizen is stored on the server through the computer.

**Role of Computer in Entertainment:** Today most people are so busy and they do not easily get time to fresh their mind. We can play various interesting video games using a computer. We can watch movies, TV shows, and reality shows on the computer. A computer is also used to create sarcastic memes and make us happy.

Thank you
